M-PLUS CONTROL UNIT for rolling shutters

New rolling shutter single-phase control unit that includes a wide range of advanced functions making it unique on the market.

In addition to the standard functions such as automatic closing and courtesy/flashing light, it introduces several new functions:

- **Maintenance:** warning for users to call for maintenance service once the programmed cycles are completed.
- **Security:** possibility to connect 2 wall Photocells, 1 Safety edge OSE (connected by radio or with spiral cable), 1 Light curtain (with dedicated transformer).
- **Advanced functions:** Dead Man at Opening; Dead Man at Closure; Photocells at opening; Acoustic signal before starting the opening or closing operation; Input for the 3 Open-Stop-Close buttons;
- **Plug-in connector** for the M-TOUCH panel.

On completion of the product:

- **M-TOUCH panel:** mounted inside the control unit box it is activated by pressing the buttons printed on the cover of the box.
- **KEY-IN Remote control:** ultra-thin design, it includes an exclusive and patented sliding drawer for a lock key.

Features:

- Frequency: 433MHz;
- Compliant with EN 12978 - EN 12453
- Made in Italy
